List of NCDC Town Planning Drawings 1962

Introduction

This accession consignment list of National Capital Development Commission town planning drawings in the *Commonwealth Records Series A1656 Plans and Drawings TP Series* will assist researchers in locating tracings held by the ACT Government. The numbers TP were dropped in the 1970s, however these plans are all individually numbered using the prefix TP a two digit year and a sequence number; for instance: TP 62/111 WODEN 10, 11 RADBURN SECTION SUBDIVISION & ROADS (FOR COMPUTATION PURPOSES) is entry 111 on the 1962 consignment list

The tracings of plans and drawings vary in size from A3 to AO and are of various schemes for the development of Canberra and the ACT. They range from plans of single building sites (or building drawings) to development plans of the entire ACT region. Some of the plans have architects names or initials on them. It also includes a few graphs and charts showing the results of various surveys and trends (eg demographic surveys and retail business sales figures).

They were transferred from the National Archives of Australia to the ACT Government.
