Conversion of NCDC development name to suburb name

The National Capital Development Commission (NCDC) used District names during the planning stages of suburbs. Those suburbs that were named by the Canberra Memorials Committee in 1928 are indicated by CNMC.

Other working names used by the NCDC that were not gazetted include Calwell East, Upper Theodore, South Bruce, Isabella Plains West, South Tuggeranong¹.

Estate names are those used by developers and real estate agents to identify for marketing purposes their areas and are not included in this list.

Use the following tables to search terms in locating NCDC files from the era before the suburb was gazetted. The first table is arranged alphabetically by suburb and the second is arranged alpha-numerically by the NCDC development name
