## Finding Aid

### Albert Hall

#### Introduction

This finding aid is aimed at assisting researchers using ACT Government archives on the topic of the Albert Hall. The government files listed in this aid are not necessarily a full listing of records on the topic; they indicate the areas of government compiling the records and are older than 20 years and so on open access.

Open access files held by the ACT Government on Albert Hall illustrate how single files made in different sections of the government, as a group over time become valuable sources of information.

## Information in the archives

Files 79/95, 79/4244, 88/12171 and 88/12172 consist of applications to hire the hall, receipts for the hire and letters concerning cancellations. The hirers' activities included:

- ACT Heritage Week functions
- art exhibitions
- balls & dances
- carpet exhibitions and sales
- doll shows
- eisteddfodau
- film nights
- flower shows
- folk music
- lapidary exhibitions
- Marymead Fashion Parade
- meetings: public, societies & union
- multicultural groups' concerts
- parties & social functions
- residential land auctions
- school holiday film shows
- stamp & coin exhibitions; and
- television program contestant auditions
- wedding receptions

File 78/2176 actually subsumes the papers of an earlier file 67/3648 and continues until 1984. Some of the papers deal with the "whole procedures for advance bookings" which resulted in a change of policy. Original application for hire forms, which include the general conditions and hire charges, are on the file. The hire charges include:

Grand piano £2.6.0  
Special stage lighting £1.10.0  
Film projection operator's wages  
Fireman's attendance 14s

Other files deal with the maintenance of the Hall and its environment and access.

File 71/1309 showed that in 1971 some of the 70-80 people who boarded the Woden Valley buses on the eastern side of Commonwealth Avenue opposite the Albert Hall between 4.50 pm and 5.10pm had to wait up to 10 minutes for the arrival of their buses. The Transport Section of the Department of the Interior requested the National Capital Development Commission arrange for the installation of a bus shelter "with due regard for the prevailing winds".

File 84/927 shows that as part of the Parliament House Access Roads project the NCDC undertook work on Commonwealth Avenue to merge north bound lanes near Albert Hall. The policy implication for this was an amendment to the Hotel Canberra Draft Development Plan which covers the area. File 87/7369 deals with the closure of the exit from Albert Hall to Commonwealth Avenue as of 7am 27 July 1987. File 87/9781 includes a photocopy of a plan of Albert Hall with hand coloured indications of where to paint.

File 87/12959 deals with the installation of new 3 HWC pump. File 87/13104 deals with the reasons for rewiring and the rewiring of the Albert Hall, "the wiring is in such a poor condition that it is possible to see the bare wire through the frayed insulation. ...Due to the historical nature of the building all existing lights will be maintained with the exception of some of the old fluorescents". Folio 15. File 88/8473 includes estimates for repairs to the roof including roof tiling and replacing galvanised guttering with copper and painting gutter boards.

70/269 National Capital Planning Committee records that the 43<sup>rd</sup> meeting on 14<sup>th</sup>-15<sup>th</sup> February 1963 discussed the Albert Hall extensions.
